

Creating a Musical Round in TuneScope

1. Use the TuneScope Audio Editor to record the lyrics from a short musical phrase of your choice.
2. Change Set Recording to the name of your recorded sound, and click the block to plot your sound.
3. Use the left and right cursor to select a silent section of the waveform at the beginning.
4. Use Delete Segment to delete the silent section.
5. Use the Up Arrow key to increase the loudness.
6. Use the beginning and end marker to identify the first phrase.
7. Combine Play Sound with a delay equal to the length of the first segment to create a round.
